1. *Company Overview*

E-Logic, Inc. (E-Logic) is an experienced warehouse and logistics management service company. Since 2007, the company has been delivering a wide range of services to support its federal government (Civilian and Defense) customers. E-Logic's logistical and warehousing projects range from local, regional and overseas support services.

Company leadership (including Executive Team and CEO) are involved in all areas of project management and delivery, guaranteeing customers a dependable and reliable solution for their warehousing and material logistical needs.

Since 2007, E-Logic operates its own facilities. E-Logic has two warehouse locations. One of the warehouses is located in Manassas, Virginia. The second warehouse is located in Doral, Florida. From these locations, the company provides all of its in-house support services. The company also has the option of managing and supporting customers' warehouse at its own facilities throughout the United States.

E-Logic provides assurance for all of its workmanship and deliverables by providing a 100% satisfaction guarantee to its customers.
